SITUATION PICKER — PAGE 4

What to do based on enemy team composition

ENEMY HAS HEAVY CC (Atlas, Franco, Khufra, Tigreal, Johnson)

Pick: Diggie (CC immunity for team), or any hero with Purify spell
Build: Add Purify battle spell. Build Immortality early on carries.
In game: Spread out before fights. Never group near their initiators.

Do: Let CC heroes waste skills on your tank before carries engage.

ENEMY HAS HEAVY POKE (Pharsa, Yve, Gord, Vale, Novaria)

Pick: Lolita (blocks projectiles), Esmeralda, dive assassins
Build: Athena's Shield on tanks. Resilience emblem talent.
In game: Stay behind terrain. Never stand still. Force close-range fights.

Do: Engage under their tower — poke heroes are weak up close.

ENEMY HAS HEAVY HEALING (Estes, Angela, Uranus, Alice, Marcel)

Pick: Karrie (ignores shields), any burst assassin who one-shots
Build: MANDATORY — Sea Halberd on fighters/MM. Necklace of Durance on mages.
In game: Buy anti-heal before 3rd item. Burst one target at a time.

Do: Never let fights drag out — sustain wins wars of attrition.

ENEMY HAS HEAVY DIVE / ASSASSINS (Fanny, Ling, Gusion, Lancelot)

Pick: Khufra (counters all dashes), Franco, Kaja
Build: Wind of Nature on MM. Blade Armor on tanks.
In game: MM and Mage must stay behind 2+ teammates at all times.

Do: Place vision at jungle entrance — never face-check without tank.

ENEMY HAS HEAVY TANKS (Khufra, Atlas, Gloo, Hylos, Uranus)

Pick: Karrie (HP% damage), Irithel, Baxia, Kimmy, Moskov
Build: Demon Hunter Sword, Malefic Roar.
In game: Kite their frontline — never 5v5 head-on.

Do: Secure objectives instead — tanks waste time, not health.

ENEMY HAS LATE-GAME HYPERCARRIES (Yi Sun-shin, Wanwan, Claude, Aldous)

Pick: Franco, Selena, Khufra — lock down carries before they scale
Build: Dominance Ice (cuts attack speed). Necklace of Durance vs lifesteal.
In game: WIN before 12 minutes. Contest every Turtle.

Do: Target their carry every fight — if they survive, you lose.

YOU ARE BEHIND (lost early, enemy has gold lead)

Pick: Avoid fights, farm safely, rotate only with 3+ teammates
Build: Defensive items first — Immortality, Antique Cuirass, Athena's Shield.
In game: Hug towers. Don't give more kills. One good fight can flip.

Do: Wait for enemy mistake. Trade kill for objective.

YOU ARE AHEAD (gold lead, kills lead)

Pick: Group after every kill, push objectives immediately
Build: Full damage — never build defensively when ahead.
In game: Push Lord the moment you wipe enemy team.

Do: Force fights near enemy base. Never let them farm back.

WIN PROBABILITY CALCULATOR — PAGE 7

Input your 5 heroes + enemy 5 heroes = Instant win % estimate

HOW WIN PROBABILITY IS CALCULATED

Each team earns Role Points based on the tier of the hero in each role. Add up points for both teams, apply modifiers, then convert to a win percentage using the formula below.

STEP 1 — TIER POINTS PER HERO

S+	+12	Game-defining, pick or ban every game	<i>Lancelot, Kagura, Yi Sun-shin, Karrie, Uranus</i>
S	+10	Top meta pick, exploits current patch	<i>Chou, Ling, Atlas, Khufra, Fanny, Beatrix</i>
A	+6	Strong, reliable, few counters	<i>Brody, Franco, Pharsa, Selena, Angela</i>
B	+3	Viable but outclassed in most matchups	<i>Saber, Clint, Rafaela, Cyclops</i>
C	+0	Actively griebs your team in ranked	<i>Layla, Sun, Alucard</i>

NOTE: S+ tier (12 pts) is new — original only went to S (10 pts). Reflects research-confirmed game-defining heroes.

STEP 2 — MODIFIERS

+8	HARD COUNTER	Your hero hard-counters one of theirs (from Counter Finder)
+5	ANTI-HEAL	You have Sea Halberd/NoD AND they have heavy healing (Estes/Angela/Marcel)
+4	FULL CC CHAIN	You have 2+ hard CC heroes that chain (Atlas + Khufra)
+3	ANTI-DASH	You have Khufra AND they have 3+ dash heroes
+3	WIN CONDITION	Your comp has a clear win condition (dive, poke, siege)
-8	HARD COUNTERED	They hard-counter one of your key carries
-6	NO ANTI-HEAL	They have heavy healing but you have ZERO anti-heal items
-5	NO FRONTLINE	Your team has fewer than 1 tank/fighter
-5	NO CC	Your team has zero hard CC (stun/knock-up/suppress/pull)
-4	LATE vs EARLY	You are late-game comp facing early-game comp with no peel

STEP 3 — CALCULATE WIN %

Win % = 50 + (Your Total Score " Enemy Total Score) × 1.8

Result capped 10%–90% • No matchup is truly unwinnable or guaranteed.

Example: Your score 54, Enemy score 40 = $14 \times 1.8 = 25.2$! $50+25 = 75\%$ win chance

Skill gap override: shift score ± 10 based on 'I am much better / similar / much worse'.

This is a GUIDE not a guarantee — always show this disclaimer next to the result.

Healing meta auto-apply: " 6 if they have Estes/Angela/Uranus/Marcel with no anti-heal on your team.

PRE-CALCULATED EXAMPLE MATCHUPS

YOUR COMP	ENEMY COMP	YOUR SCORE	WIN %
Chou+Fanny+Kagura+Khufra+Beatrix	Atlas+Ling+Valentina+Franco+Wanwan	$S+S+S+S+S=54$, +CC chain+4	74–80%
Chou+Gusion+Pharsa+Atlas+Brody	Khufra+Fanny+Lunox+Franco+Claude	$S+S+A+S+A=43$, +counter Chou>Claude+8	49–55%
Minsitthar+Saber+Harith+Layla+Rafaela	Ling+Kagura+Atlas+Khufra+Beatrix	$B+B+B+C+B=12$, -no CC-5, -no counter-8	< 20%
Esmeralda+Julian+Gord+Granger+Mathilda	Franco+Gusion+Lunox+Khufra+Melissa	$A+S+S+A+A+S=45+$, +anti-dive+4	44–52%

WEBSITE IMPLEMENTATION NOTES

- Let user select heroes from dropdowns (one per role). Auto-populate tier points based on table above.
- Show modifier checklist — user ticks which modifiers apply. Running total updates in real time.
- Display result as colored percentage bar: red (<40%), orange (40–60%), green (>60%).
- Skill gap override: add slider 'I am much better / similar / much worse' that shifts score by ± 10 .
- This is a GUIDE not a guarantee — always show disclaimer next to the result.
- Healing meta: auto-apply the " 6 modifier if they have Estes/Angela/Uranus/Marcel with no anti-heal on your team.

GAME PHASES

EARLY Clear Exp Lane fast. Win the 1v1. Steal enemy Crab if ahead by Level 4.

MID Join fights after 2nd item. Use Shunpo !' Jeet Kune Do combo in every clash.

LATE Frontline for team. Ult to kick enemy MM or jungler into your team.

IF WINNING

Chase down their carry after every fight. Push Exp Lane turret between fights.

IF LOSING

Peel for own backline. Build Immortality as 4th item. Do not dive alone.

KEY TIPS

1. Shunpo closes gap !' Jeet Kune Do gives full knock-up. Practice in custom first.
2. Save ult to kick their MM/Jungler into your team — wasting it on supports costs fights.
3. PATCH 2.1.67a BUFF: +100 Ultimate base damage, +100 chase damage at max level.

Fanny

Assassin • Jungle • Difficulty: Hard

S

WHEN TO PICK

- You are confident in cable mechanics — do NOT pick without practice
- Enemy has no hard CC to pin you
- Your team has strong team fight support (Atlas, Diggie)

BUILD ORDER

Warrior Boots !' Bloodlust Axe !' Hunter Strike !' Blade of Despair !' Malefic Roar !' Immortality

Spell: Inspire + Retribution Emblem: Assassin – Killing Spree

COUNTERED BY

Selena, Franco, Saber

BEATS

SYNERGIES

Atlas, Diggie, Angela

GAME PHASES

EARLY Clear jungle efficiently. Cable only to walls. Gank after Level 4.

MID Rotate to winning lanes. Secure Turtle with team. Target enemy backline in clashes.

LATE Delete one carry before fight starts. Chain cables to escape.

IF WINNING

Force objectives after every kill. Snowball immediately.

IF LOSING

Farm safely. Do NOT gank alone. Wait for team to group.

KEY TIPS

1. Cable into walls/structures ONLY — open-ground cables waste energy and leave you exposed.
2. Always chain 2 cables before attacking. Diving with 1 cable = no escape = death.

LATE Wall-flank their backline. Pick off carry before main fight starts.

IF WINNING
Control map via walls. Deny enemy jungle. Secure Lord after picks.

IF LOSING
Farm safely on walls. Do not engage 1v2+. Wait for isolated target.

KEY TIPS

- Tempest of Blades icicles reset wall-jump CD — always ult before multi-enemy engage.

- & NERF INCOMING on Advanced Server — tier may drop next patch.

LATE Full build = win condition. Shred tanks with Tiger Pace. Never dive alone.

IF WINNING
Stay alive, let tank initiate. Your job is damage, not initiation.

IF LOSING
Build Wind of Nature if enemy dives you. Farm to full build safely.

KEY TIPS

- Hit ALL 4 weakpoints before ulting — partial Tiger Pace is a wasted ultimate.
- UPGRADED to S+: Research confirms unmatched mobility + built-in Purify still top tier.
- Marksman overhaul Patch 2.1.67 redistributed stats — adjust build as needed.

IF LOSING

KEY TIPS

COUNTERED BY

BEATS

SYNERGIES
Angela, Mathilda, Atlas

GAME PHASES

EARLY Nearly useless without DHS — play EXTREMELY safe. Farm under tower.

MID With DHS + Golden Staff you deal massive sustained DPS. Stay behind frontline.

LATE Stand at backline before ulting — ult deals DPS in a circle AROUND YOU.

IF WINNING
Use S2 to swap with Dexter and dive backline when enemy CC is on cooldown.

IF LOSING
Never use S2 offensively when behind — use it only to escape dives.

KEY TIPS

- Position at backline before ulting — it deals DPS in a circle AROUND you, not a ranged skill.
- CORRECTED: Original listed Claude as A*. Research confirms S tier despite nerf.
- & NERF INCOMING on Advanced Server — may drop next patch.

Gusion

MID Full combo: S1 dash !' S2 daggers !' recall !' Ult !' repeat S1.

LATE Target enemy backline every fight. Force objectives after every kill.

IF WINNING
Chain kills across team fight. Flicker mid-ult to reposition for 2nd S1.

IF LOSING
Do not initiate alone. Wait for tank to engage first, then follow.

KEY TIPS

- Surround enemy with S2 daggers from multiple angles so the recall is guaranteed.
- Flicker mid-ultimate to reposition — extends combo and catches fleeing enemies.

Valentina
Mage • Mid Lane • Difficulty: Hard

S

WHEN TO PICK

- Enemy has a powerful ult to steal (Tigreal, Franco, Atlas, Aldous)
- You need a flexible mage who adapts to any comp
- Enemy team is grouped for AoE ultimates

COUNTERED BY

GAME PHASES

- EARLYFarm safely. Stack passive fast — earlier you steal ult, the stronger you become.
- MIDDodge CC with dashes before casting stolen ultimate. Mark the enemy with best ult.
- LATEOne stolen team fight ult can flip the entire game. Stay alive above all else.

IF WINNINGCopy the enemy tank ult and use it to initiate — stolen CC is devastating.

IF LOSINGStay behind team. Use dashes defensively. Your burst can still flip a fight.

KEY TIPS

1. Always steal the best ult: Tigreal, Franco, Atlas give enormous team-fight value.
2. Dodge CC with built-in dashes BEFORE casting stolen ult — never get interrupted mid-cast.

Khufra

S

WHEN TO PICK

GAME PHASES

- EARLYRoam after Level 2. Secure vision. Contest early Turtle with jungler.
- MIDInitiate with S2 to block dashes. Peel for carries when enemies dive.
- LATEFrontline every fight. Protect marksman and mage at all costs.

IF WINNINGRoam between lanes constantly — pressure multiple lanes to widen gold lead.

IF LOSINGPlay defensively. Use S1 to escape, not engage. Stay near carry.

KEY TIPS

1. Activate S2 the moment an enemy starts a dash animation — tight timing negates all mobility.
2. Roam constantly — Khufra's value comes from map pressure, not sitting in one lane.

Atlas

Tank • Roamer • Difficulty: Hard

- MID Join fights after 2nd item. Use Leap of Faith to dive enemy backline.
- LATE Frontline and brawl. Sustain lets you absorb damage while team deals it.

IF WINNING

Dive enemy backline after tank engages. Chain fights — never let them heal.

IF LOSING

Build Immortality earlier. Sustain lets you stall for team to respawn.

KEY TIPS

1. Promoted to S-tier June 2026 after major kit revamp. Previously A-tier.
2. Leap of Faith is a dive tool, not escape — land on enemy backline aggressively.
3. & NERF INCOMING on Advanced Server — tier may drop next patch.

WHEN TO PICK

- Enemy tanks are grouped — your AoE shreds them
- Your team needs sustained zone control
- Enemy lacks dive assassins to reach your backline

BUILD ORDER

Arcane Boots ! Clock of Destiny ! Holy Crystal ! Divine Glaive ! Blood Wings ! Immortality
Spell: Flicker + Purify Emblem: Mage – Magic Worship

COUNTERED BY

Natalia, Hanzo, Helcurt

BEATS

Grock, Uranus, Baxia

SYNERGIES

Atlas, Khufra, Diggie

GAME PHASES

- EARLY Stay safe. Farm and poke from distance.
- MID Chain S1 ! S2 ! Ult for max burst. Always stand behind frontline.
- LATE Ult in narrow corridors — near Lord/Turtle pit for guaranteed hit.

IF WINNING

Push mid turret aggressively with zone control. Poke clears waves instantly.

IF LOSING

Never engage without tank in front. Use Purify to escape dives.

KEY TIPS

1. Promoted to S-tier June 2026 after significant damage buff. Previously A-tier.
2. Use Ult in narrow corridors near Lord/Turtle pit — guaranteed hit on grouped enemies.

Assassin • Jungle • Difficulty: Hard

UPDATED

S+

WHEN TO PICK

- Enemy backline is squishy with no hard CC
- Your team needs a pick-off assassin who snowballs fights
- Enemy lacks heroes that block or reflect dashes

BUILD ORDER

Arcane Boots ! Endless Battle ! Blade of Despair ! Malefic Roar ! Hunter Strike ! Immortality
Spell: Retribution + Flicker Emblem: Assassin – Killing Spree

COUNTERED BY

Lolita (blocks dashes), Franco, Selena

BEATS

Layla, Miya, Rafaela

SYNERGIES

Atlas, Khufra, Mathilda

GAME PHASES

- EARLY Farm safely. Level 4 spike — gank when all skills available.
- MID Full combo: S2 ! S1 ! Ult ! repeat. Invulnerability during ult lets you dodge burst.
- LATE Delete one carry before fight starts. Chain kills across teamfight.

IF WINNING

Force objectives after every kill. Combo deletes targets even when expected.

IF LOSING

Do not engage 1v3+. Wait for tank to initiate first, then follow.

KEY TIPS

1. Ult grants invulnerability — use it to dodge enemy burst mid-fight, not just for damage.
 2. S2 dash into target, S1 for second hit, Ult for triple dash reset — learn the pattern.
 3. UPGRADED: Original placed Lancelot at A. Research confirms S+ in current meta.

GENERAL RULES

- Always have at least 2 hard CC heroes (stun, knock-up, pull, suppress).
- Always have at least 1 hero with Lord / Turtle burst ability.
- Healing meta (Season 40): anti-heal on at least 2 heroes every single game.
- Marcel is the most banned hero — always have a backup if he gets banned.
- Balance physical and magical damage — full physical comp is easy to itemize against.
- If enemy bans Lancelot + Kagura + Yi Sun-shin, you likely have the draft advantage.

SQUAD MODE TIPS — PAGE 23

Different strategy depending on how many friends you queue with

5-MAN SQUAD

DRAFT:	Assign roles before draft: Roamer !' Jungler !' Mid !' Gold !' Exp.
ROTATIONS:	Rotate as a unit after securing Turtle.
SHOT-CALLER:	Designate ONE shot-caller. Everyone follows.
COMMS:	Use voice chat or quick pings.
WINNING:	Push as 5 immediately after Lord. Do not split.

3-MAN (TRIO)

COMP:	Best comp: Roamer + Jungler + one flexible laner.
LANES:	Two players contest Gold & Exp lanes; Roamer rotates.
GANKS:	Coordinate ganks on same lane — trio burst kills very reliable.
TURTLE:	Turtle fights always 3v3 — never contest if enemy has 4+ nearby.
BEST HEROES:	Mathilda, Atlas, Fanny, Lancelot work best in coordinated 3-man setups.

DUO LANE

GOLD LANE:	MM + Support is the strongest 2v2 lane combination.
EXP LANE:	Double Fighter bullies most solo laners out of lane.
GANKS:	Communicate every gank attempt — no solo diving without backup.
FARMING:	Farm together early; split only when both players are safe.
BEST DUOS:	Angela + Claude, Atlas + Fanny, Mathilda + any carry, Floryn + Wanwan & .

SOLO RANKED

HERO PICKS:	Self-sufficient heroes with escapes: Lancelot & , Kagura, Yi Sun-shin & , Dyrroth & .
SELF-RELIANCE:	Never rely on teammates for peel — build defensively when behind.
MENTALITY:	Mute toxic teammates immediately.
ROLE:	Solo carry is easiest as Jungler or Gold Lane role.
TILT CONTROL:	Close app for 10 minutes after 2 consecutive losses.
NEW TIP:	Pick Marcel if available — most banned = highest solo-queue priority.
